Manufacturer

Name: East Tone UK Ltd

Address: Bumble Clumps, Northampton Road, Weston-on-the-Green OX25 3JJ

Telephone: +44 1869 343 112

Email: sales@east-uk.com

Website: <https://www.east-uk.com>

This declaration of conformity is issued under the sole responsibility of the manufacturer.

The object of this declaration is in conformity with the EU harmonisation legislation:

Directive: Packaging and Packaging Waste Regulation (PPWR)

Object and Description of the declaration

All East Pre Amp types fit into the same size box with four small variations of Mounting card, Foam and Antistatic Foam inserts.

The packaging solution consists of a cardboard box, with when applicable, a product mounting card and cut foam interior, each box weighing around three hundred grams.

East supplies approximately 250 Boxes into the EU per year.

It is expected that these boxes will be kept by the recipient and reused.

Additional information:

All East Tone UK Designed Preamps, contain sensitive and valuable electronic components.

The Pre-amp needs to be protected against transit damage and static electricity that may also occur in transit.

Custom Fitted Inserts have been produced to remove the risk of transit shock and anti-static materials are used as a specialised packaging material, designed not just to physically cushion the product, but to actively control and reduce any build-up and transfer of static electricity that can silently damage delicate electronic components.

EAST TONE UK PACKAGING EU DECLARATION OF CONFORMITY

The Materials used are as follows.

Main Box Paper printed and glued Grey Cardboard

Sleeve Printed and glued white Board
